

jonathan internicola

designer | researcher | implementer of dreams

This timeline is a linear representation of the journey that is outlined on my <personal website>. For more information about my journey, or to see a more comprehensive resume, please visit my website or email me at: hello@jintern.io

AIR lab | Director

I built and manage a product and analytics team inside NYC's mobility regulatory agency

Bandwagon | COO

I ran operations and product for a shared mobility start-up

Intern

During graduate school, I had several internships in design and mobility

Behavioral Research

During college, I explored how design impacted human behavior

Sculptor

Early in my career, I learned how to bring ideas to life using clay and metal.

Consultant

I work with clients to use research and design to help them bring their dreams to life.

Graduate School

My graduate work focused on developing my research arsenal

Design Research

I spent a year at Columbia's GSAPP developing myself as a designer

College

I created a foundation to build human-centered experiences
